

Dear Partners,

As you know, Kilews Power Torque series is designed for replacing Pneumatic tools which is under 25N.m. and it's suitable for white goods and automotive industrial purpose.

(Kilews is developing the tools can reach 35N.m & 50N.m. / SKD-RBN350L,P & SKD-RBN500L,P)

Until now, it has been promoting for a period of time.

In order to strengthen and help you on Power Torque promoting, here we would like to provide some application videos from below link for your reference.

It's more easily to let you understand the application and we believe it's helpful for you to promote and increase your sales.

And we will keep updating new video in below link.

<http://www.loover.com.tw/en/?p=1496>

Features:

Eco-friendly: Brushless, no carbon powder pollution, lower noise, easy to maintain.

Precision & Steady: with clutch, be free from fatigue under long-working hours.

High Torque: SKD-TBN/RBN series - 2~25N.m (20~250kgf/cm), can replace pneumatic screwdrivers.

Distinguished breakthrough: SKD-BN900 series - reach high speed as 1000 r.p.m, much more efficient.

Counter & PLC: SKP-BC40HL v 3.0 / SKP-BC40HL-800 v 3.0 – unique in the world - displaying the number of unfinished screw counts can prevent the operation error from neglect fastening screws.

Pneumatic tools have no output signal function for producing management.

Shall you have any comments or suggestions, please feel free to contact us.

Best Regards,

Loover-Kilews Industrial Co., Ltd
