

Dear Partners,

When ordering SKD-BN900L series (Lever type), **the standard tool we ship is with short trigger.** But if the tool to be used with pistol grip (LG-13 / LG-13S), **the trigger has to be changed as long trigger to fit in with.**

Please find attached pictures for short and long trigger for your reference.

- **If you order SKD-BN900L series tools with pistol grip together, we will ship tool with long trigger.**
- **If you order SKD-BN900 series tools only (ship with short trigger), when order pistol grip afterwards, we will ship pistol grip along with long trigger as replacement together.**

Thank you for your attention.

Best Regards,

Loover-Kilews Industrial Co., Ltd.

Short trigger
