

Dear Partners,

Please kindly note that it is **ONLY B type bit holder** of SKD-RBN L type series can be used with KL-3 (B and W bit types) 90 degree attachment.

The torque of SKD-RBN series will be reduced about 15% when using KL-3, but the speed r.p.m is unchanged.

The KL-3 is needed to order together with SKD-RBN series, as it will be assembled on production and the mechanical structure must be adjusted before shipment.

Should you have any questions, please feel free to contact us. Thank you.

Best regards,

Loover-Kilews Industrial Co., Ltd.
